

Carlessness With Fire To Be Penalized

New York, Oct. 8.—Stagflation property owners whose carlessness in the past has contributed to the loss of 15,000 lives and the destruction of \$100,000,000 annually by fire in the United States are going to be blacklisted by fire department officials in a number of cities this year in accordance with a plan of the National Board of Fire Underwriters.

For weeks in anticipation of the observance of Fire Prevention day throughout the nation tomorrow, the following warning has been displayed on billboards, street cars and in other public places:

"Keep off the fire department's blacklist!"

"Prior to fire prevention day, members of the uniformed force will make inspections of business and residential properties. All premises exhibiting accumulations of rubbish, defective chimneys and flues, improper heating devices or any other conditions constituting a public menace will be carefully noted and recorded."

"Chief Fire Department."

Observance of Fire Prevention day, which falls on the 15th anniversary of the burning of Chicago, will be observed throughout the United States according to an announcement by the National Board of Fire Underwriters today. The observance of many states having issued proclamations in accordance with the request of President Wilson.

The New York city fire department, through its bureau of fire prevention, has planned a program which includes the issuance of 50,000 letters to school children and their parents, the display of 40,000 red

Border Routes To Cease To Be "Roads To Hell"

No longer shall the roads leading to the Mexican border be "roads to hell," as they have been designated, since the assurance of Roberto V. Penqueira, Mexican fiscal agent in the United States and ambassador-in-wait, who is now a senior guest of the city.

"I admit with regret that in times past these borders to the north and south of the border have often been hell holes, hard as the country on both sides may have tried to keep them decent," said Mr. Penqueira, "but with a government in Mexico now that stands for law and order and dignity and with cooperation assured by the American states north of the border we propose to keep these borders decent, clean, safe, and all such people out."

Although, as Mr. Penqueira put it, "the border will not be dried up, it is not to be a little drink now and then," it is to be a regulated border and purged of gambling and crime."

Mr. Penqueira told of a thrill he had in New York, recently, during the burning of the city. He related being a victim by not more than two minutes. He had an engagement at the Morgan bank, but was detained by a precautionary measure. On his way to the Morgan bank the explosion occurred.

The Pretty Hostess

By EDNA KENT FORBES

There are various ways of achieving popularity, but I should say that a short cut to it would be to learn how to be a charming hostess. This surely is an art that every girl can pick up for herself without a great deal of effort.

First of all, it does not require a lot of money to be a good hostess. There's a great mistake which many girls and grown women make, I remember when I was a youngster saying to my mother, "It's always like a party when you play at Eleanor's house, but they never have anything to eat." And that about summed up the situation. Eleanor adored having children play in her yard and Eleanor herself had a way of pulling at us, and of sometimes joining in our games, that pleased us more than treats of cakes or candy.

You can be a popular and a charming hostess without going in for elaborate refreshments or expensive decorations. I've often suggested to girls who wanted to draw about them a circle of friends that they be at home at least once a week and have a party. It is not to be a party, but a party in which people will know they can drop in for a cup of tea and some pleasant chatter at certain times.

Not expensive, this method, is it? Learn the little arts of hospitality, like to see your friends and the other girls, explain to them what you want to bring—ask about you like them—and you'll achieve popularity as a hostess, and as a person. Make your house pleasant and useful to your friends, and you'll draw people around fast enough.

Brown Eyes—The weight of a girl of 14, who is five feet, four inches in height, should be about 118 pounds.

W. F. A.—A girl of 15 should be wearing her hair down her back. The style of hair dressing that you mention is not to be recommended at any time. If you feel that you would care to try putting the hair up occasionally, as a novelty, you will find an attractive style for a young girl in the "Beauty Chat" of August 22.

Suey—You should weigh about 118 pounds. There is nothing that can be done for thick lips, which I could advise, except to keep your teeth looking healthy and your skin clear, then forget your lips. They will be more pronounced if you are self-conscious, while they will not be

Secrets Of The Movies Revealed

Q. How many motion picture plays were produced in the United States and Canada last year?
A. Six hundred and thirty feature film productions were made in America last year. This does not include short reels.

Q. Where do the picture producers get their trick dogs, cats and other animals?
A. As a rule these animals are furnished by regular trainers located near the various studios.

Q. What movie comedienne has never stepped a pie or worn a Kedsman bathing suit?
A. Dorothy DeVore. Yet she always "gets over" in her pictures.

Q. What well known actress in pictures made their debut in the same production?
A. The Binneys. Both Constance and Fairs first appeared in "Sporting Life," a Maurice Tourneur production.

Q. Is Theda Bara dead or alive?
A. Theda, like Mark Twain, says that the report of her death is greatly exaggerated. For some time a rumor has been spreading about the country that the real Theda is dead; that the present Theda is really Esther Bara, a sister. The rumor also has it that the reason Theda left Fox was because Esther Bara didn't measure up to her sister's vampire standards. The rumors are absolutely false as Theda and her sister are both in Europe and will again appear in a stage play in this country this winter. There is only one Theda Bara and she is very much alive.

Q. How many Marckes are there now playing in the movies?
The answer will appear in this department tomorrow.—Copyright, 1925, Thompson Feature Service.

MARY PICKFORD ANNULMENT CASE COMES UP SATURDAY

Reno, Nev., Oct. 8.—Motion of attorneys representing Mary Pickford to quash a suit brought by the state of Nevada, through L. B. Fowler, attorney general, to annul her divorce from Owen Moore, will be heard tomorrow at the county court at Minden, Nev., where the divorce was granted, March 2, 1925. The suit also attacks Miss Pickford's later marriage to Douglas Fairbanks.

The suit asks annulment chiefly on the ground that the principals were not residents of Nevada when the divorce was granted. Defense attorneys say it is announced, will claim that the state of Nevada has no right to sue in the case and has given attorney general Fowler no authority to sue.

Claim also will be made that the divorce was obtained under a Nevada law that does not require residence of both parties are present at the hearing and at the granting of the decree.

Mrs. Pickford, whose name appears in the court records as Gladys M. Moore, known as Gladys M. Fairbanks, will be represented by Gavin McNish, San Francisco and Judge P. A. McCaskey, Nevada attorney.

EARTHQUAKES ARE PUZZLING TO THE SCIENTIFIC STUDENTS

Washington, D. C., Oct. 8.—Frequent earthquakes in North and South America and Europe during the last few months have puzzled government scientists. They regard the disturbances as a geological anomaly, for they say that the greatest seismic disturbance is known definitely to be in February, March and April. Their opinion coincides with that of Father Conforti, director of the Georgetown University seismic observatory.

The government scientists have no particular scientific reason, is suggested for the frequency of the recent earth disturbances. Geologists recognize that the earth's surface is in a state of continual stress, and they explain that whenever the accumulated force passes the "breaking point" earthquakes follow. The disturbances which recently have occurred in three continents are regarded by scientists as movements of the earth's crust and yet they say that some of the shocks may have extended to a depth of 250 miles.

Mazola—the choice of leading hotels, clubs, and railroad dining cars in America!

WOMEN everywhere are finding out that lard is one of the most unsatisfactory of all cooking fats. It is absorbed into the food, making it heavy, soggy and indigestible at times. So much lard is taken up by the food during cooking that it becomes more expensive to use.

Mazola is 100% pure vegetable oil. It never penetrates into the food, but sears fish or meat over, and preserves all the good flavors. At the same time, it makes the food more digestible.

You too, should use Mazola for all cooking, baking, frying and sautéing purposes.

Thousands of people everywhere use Mazola as a delicious salad dressing, in preference to olive oil or any other vegetable oil. It costs about half what an acceptable grade of olive oil would cost.
